COVER LETTER

Date: May 9, 2024

Hiring Manager
PwC Deutschland
Deutschland

Dear Hiring Manager,

I am writing to express my interest in the working student position in Data Science within your Assurance Solutions division, as advertised. With a foundation in Computer Science and Engineering coupled with ongoing education in Data Science at RWTH Aachen University, I am eager to contribute to the digital transformation initiatives at PwC Deutschland while furthering my own professional development.

My professional experience as a Software Engineer at Gemini Solutions has provided me with valuable insights into software development processes and project management, enhancing my ability to collaborate effectively within teams and deliver innovative solutions to meet client objectives. Through my coursework and practical projects, I have honed my skills in data analysis, machine learning, and programming languages such as Python, Java, and C. Furthermore, my familiarity with AI technologies including TensorFlow and scikit-learn aligns closely with the technical requirements outlined in your job posting.

What excites me about the opportunity at PwC Deutschland is the chance to apply my technical skills in a forward-thinking environment dedicated to digital innovations. I am eager to contribute to projects focused on AI governance, quality assurance, and the development of high-tech solutions that address real-world challenges faced by internal and external stakeholders.

Thank you for considering my application.

Warm Regards
Amlendu Shekhar
